

FAROOQ BAIG

SALESFORCE DEVELOPER

+91 8332928633 | farooq.x.baig06@gmail.com | Chennai, India.

PROFILE

7x Certified Salesforce Developer with **3 years of hands-on experience** building scalable, enterprise-grade Salesforce solutions for **leading US-based Healthcare clients**. Experienced in **Apex, Lightning Web Components (LWC), Triggers, OmniStudio, SOQL, SOSL, Flows, Salesforce APIs, and integrations**, with strong expertise in Salesforce architecture, data modeling, security, automation, governor limits, and performance optimization. Demonstrated technical **leadership and mentoring experience, providing technical guidance and supporting a team of 10 developers** in delivering high-quality Salesforce solutions. Proven ability to translate complex business requirements into robust, scalable, and maintainable solutions while adhering to Salesforce development best practices.

PROFESSIONAL EXPERIENCE

Company: Accenture | Role: Analyst Developer

Client: Kaiser Permanente | Jan 2025 - Present

- **Architected Salesforce solutions**, presenting technical approaches directly to **Client Leadership** and driving architecture and implementation planning.
- Modernized legacy applications by **redesigning Visualforce Pages**, updating existing business logic, and migrating functionality to the Lightning platform, reducing technical debt by 60%
- **Refactored existing LWCs** increasing application security by 2x and ensuring compliance with **Lightning Web Security (LWS)**.
- **Integrated third-party Smarty APIs** with Salesforce to verify attendees' original addresses during meeting-related processes, reducing verification time by 30%.
- **Led application-wide refactoring** following the deprecation of Record Types and legacy components, **restructuring Apex, Visualforce, Flows**, and dependent functionality, delivering **zero defects reaching production**.
- **Spearheaded the ACR migration** from a **one-to-one to one-to-many relationship**, refactoring controllers, Apex, Flows, and business logic across the application.
- **Provided technical leadership to a 10+ member team** during the ACR transformation, resolving complex implementation and dependency challenges across two production releases.
- **Resolved critical production issues within 4 hours**, deployed major components, and supported key production releases under tight timelines.

Company: Accenture | Role: Associate Developer

Client: Blue Shield of California | Nov 2023 - Jan 2025

- **Designed and implemented** solutions using **Apex, LWC, Flows, OmniStudio, SOQL, SOSL, and Salesforce APIs**.
- **Built OmniStudio solutions** using **OmniScripts, FlexCards, DataRaptors, and Integration Procedures** for complex business processes, reducing maintenance effort by 20%.
- **Engineered custom Apex Classes, Triggers, and LWC controllers**, following bulkification, governor-limit, security, and performance best practices, Increasing system scalability by 3x.
- **Automated** complex business processes using **Flows and Apex**, reducing manual operations and unnecessary custom development, Improving page load time by 40%.
- **Implemented REST API** integrations for secure data exchange between Salesforce and external systems, reducing API response time by 50%
- **Configured Access Management** using **Profiles, Permission Sets, Sharing Rules, Role Hierarchy, and FLS**.
- **Optimized** Apex, SOQL, Flows, LWC, and OmniStudio components to improve **performance and scalability**.
- **Troubleshooted and resolved** production issues across **Apex, LWC, Flows, OmniStudio, integrations, and security**.

TECHNICAL SKILLS

- **Salesforce Development:** Apex (Classes, Triggers, Asynchronous Apex, Exception Handling, Governor Limits), Lightning Web Components (LWC), Visualforce, SOQL, SOSL, Custom Metadata, Custom Settings, Data Modeling, and Salesforce Development Best Practices.
- **Automation:** Salesforce Flows (Record-Triggered, Screen, Scheduled, Autolaunched), Workflow Rules, Process Builder, OmniStudio (OmniScripts, FlexCards, DataRaptors, Integration Procedures), and Business Process Automation.
- **Security:** OWD, Role Hierarchy, Sharing Rules, Manual Sharing, Field-Level Security (FLS), Profiles, Permission Sets, Permission Set Groups, CRUD/FLS, and Apex Security.
- **Integration:** REST APIs, Salesforce APIs, Third-party APIs
- **Tools/Deployment:** Copado, Git, Salesforce CLI, VS Code

CERTIFICATIONS

- Salesforce Certified Platform Developer II (PDII)
- Salesforce Certified Platform Developer I (PDI)
- Salesforce Certified Platform App Builder
- Salesforce Certified Platform Administrator
- Salesforce Certified Agentforce Specialist
- Salesforce Accredited Agentforce Health Professional
- Salesforce Certified AI Associate
