

FAROOQ BAIG

Salesforce Developer | Apex, LWC, OmniStudio & Administration

Chennai, India | +91 8332928633 | farooq.x.baig06@gmail.com | [LinkedIn](#) | [Trailhead Profile](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Salesforce Developer with hands-on, production experience across the full Salesforce platform — custom development (Apex, Visualforce, Lightning Web Components), declarative automation (Flows, OmniStudio), core administration (custom objects, page layouts, record types, validation rules, user management, reports/dashboards), platform security (Profiles, Permission Sets, Sharing Rules, Field-Level Security), and REST API integrations — delivering enterprise-grade solutions for US healthcare clients (Kaiser Permanente and Blue Shield of California, on the Service Cloud platform). Comfortable working end-to-end, from architecture discussions and requirement analysis through build, testing, deployment, and production support, with a strong focus on governor-limit-aware, scalable design. 7x Salesforce Certified, including Platform Developer I & II, Platform Administrator, Platform App Builder, and AI/Agentforce credentials. Experienced providing technical guidance and mentorship to a 10+ member delivery team, leading code reviews, and collaborating with architects, QA, and business stakeholders in Agile/Scrum environments.

TECHNICAL SKILLS

- Salesforce Development:** Apex (Classes, Triggers, Asynchronous Apex, Exception Handling, Governor Limits), Lightning Web Components (LWC), Visualforce, JavaScript, SOQL, SOSL, Custom Metadata, Custom Settings, Data Modeling, Force.com Platform
- Salesforce Administration:** Custom Objects & Fields, Page Layouts, Record Types, Validation Rules, User Management, Reports & Dashboards, Data Loader, Data Migration & Data Quality Management
- Automation & Configuration:** Salesforce Flows (Record-Triggered, Screen, Scheduled, Autolaunched), Workflow Rules, Process Builder, OmniStudio (OmniScripts, FlexCards, DataRaptors, Integration Procedures)
- Security:** OWD, Role Hierarchy, Sharing Rules, Manual Sharing, Field-Level Security (FLS), Profiles, Permission Sets, Permission Set Groups, CRUD/FLS, Apex Security, Lightning Web Security (LWS)
- Integration & Data:** REST APIs, SOAP APIs, Salesforce APIs, Third-Party API Integrations, Data Loader, Data Migration
- AI on Salesforce:** Salesforce Agentforce, Salesforce AI (Certified — see Certifications)
- Tools, Deployment & Methodology:** Copado, Git, Salesforce CLI, VS Code, Agile/Scrum

CERTIFICATIONS (7X SALESFORCE CERTIFIED)

- Salesforce Certified Platform Developer I (PD I)
- Salesforce Certified Platform Developer II (PD II)
- Salesforce Certified Platform Administrator
- Salesforce Certified Platform App Builder
- Salesforce Certified AI Associate
- Salesforce Certified Agentforce Specialist
- Salesforce Accredited Agentforce Health Professional (formerly Health Cloud Accredited Professional)

PROFESSIONAL EXPERIENCE

Accenture — Analyst Developer (Salesforce Developer)

Jan 2025 – Present

Client: Kaiser Permanente | US Healthcare (Service Cloud platform) | Chennai, India

- Architected Salesforce solutions and presented technical approaches directly to client leadership, driving architecture and implementation planning.
- Modernized legacy applications by redesigning Visualforce pages, updating business logic, and migrating functionality to Lightning (LWC), reducing technical debt by 60%.
- Refactored existing LWCs to increase application security 2x and ensure compliance with Lightning Web Security (LWS).
- Integrated third-party REST APIs with Salesforce to verify attendee addresses during business processes, cutting verification time by 30%.
- Led application-wide refactoring following the deprecation of Record Types and legacy components, restructuring Apex, Visualforce, and Flows with zero defects reaching production.
- Spearheaded a data-model migration from a one-to-one to a one-to-many relationship structure, refactoring controllers, Apex, Flows, and business logic across the application.

- Provided technical leadership and mentorship to a 10+ member team through two production releases, resolving complex implementation and dependency challenges.
- Resolved critical production incidents within 4 hours, supporting release deployments and performance troubleshooting under tight timelines.

Accenture — Associate Developer (Salesforce Developer)

Nov 2023 – Jan 2025

Client: Blue Shield of California | US Healthcare (Service Cloud platform) | Chennai, India

- Designed and implemented solutions using Apex, LWC, Visualforce, Flows, OmniStudio, SOQL, SOSL, and Salesforce APIs for enterprise business processes.
- Built OmniStudio solutions (OmniScripts, FlexCards, DataRaptors, Integration Procedures) for complex processes, reducing maintenance effort by 20%.
- Engineered custom Apex classes, triggers, and LWC controllers following bulkification, governor-limit, security, and performance best practices, increasing scalability 3x.
- Automated business processes using Flows and Apex, reducing manual operations and improving page load time by 40%.
- Implemented REST API integrations for secure data exchange with external systems, reducing API response time by 50%.
- Administered core Salesforce configuration — custom objects and fields, page layouts, record types, and validation rules — to support evolving business requirements.
- Managed user provisioning and access management using Profiles, Permission Sets, Sharing Rules, Role Hierarchy, and Field-Level Security (FLS).
- Built and maintained reports and dashboards for business stakeholders to track operational and release metrics.
- Performed data loads, data cleansing, and data migration using Salesforce Data Loader to support org changes and release cycles.
- Used Copado and Git for source control, code versioning, CI/CD deployments, and release management across sandboxes and production.
- Optimized Apex, SOQL, Flows, LWC, and OmniStudio components for performance and scalability, and troubleshot production issues across the stack.

EDUCATION

Bachelor of Technology, Computer Science & Engineering

Aug 2019 – Jun 2023

Prasad V. Potluri Siddhartha Engineering College, Vijayawada | 84.8%

Intermediate (MPC)

Aug 2017 – Jun 2019

Narayana Junior College, Vijayawada | 94%

SSC (10th)

Aug 2016 – Jun 2017

Bala Vignan Public School, Vijayawada | 93%
